Chamber of Commerce Pleased with the Lexow Committee's Work.

Commissioner Murray Says Any Corruption Should Be Fxposed.

Gideon Granger, the divorced son-inlaw of Police Commissioner McClave, om, it is alleged, the police have

been making a vigorous search, has not yet been apprehended.

The young man over whose alleged misconduct and criminal actions Mr. McClave shed tears while testifying before the Lexow Committee has apparently disappeared as completely as if the earth had opened and swallowed him body and boots.

A strange anomaly is presented in the professedly sincere desire of Mr. McClave to apprehend the missing and much-wanted witness and the fact that no warrant has been aworn out to justify the police in placing him under arrest.

The latter fact seems to indicate a lack of sincerity upon the part of Commissioner McClave. If the police are to search for Granger with the intention of arresting him, they must be equipped with something more legally efficacious than the mere "say so" or command of Commissioner McClave, in order to place with something more legally efficacious than the mere "say so" or command of Commissioner McClave, in order to place with something more legally efficacious than the mere "say so" or command of Commissioner McClave, in order to place with something more legally efficacious than the mere "say so" or command of Commissioner McClave, in order to place with something more legally efficacious than the mere "say so" or command of Commissioner McClave, in order to place with something more legally efficacious than the mere "say so" or command of Commissioner McClave, in order to place with something more legally efficacious than the mere "say so" or command of Commissioner McClave, in order to place with something more legally efficacious than the mere "say so" or command of Commissioner McClave, in order to place with something more legally efficacious than the mere "say so" or command of Commissioner McClave, in order to place with something more legally efficacious than the mere "say so" or command of Commissioner McClave, in order to place with something more legally efficacious than the mere "say so" or command of Commissioner McClave has said that no proposition of the successful where the my

him where the Investigating Committee may feel assured of his presence before them when wanted.

But Mr. McClave has said that no warrant has been sawon out for his exponential practice of Supt. By the accuser making a deposition before a Police Magistrate, but in this case no such proceeding has been taken.

If Mr. McClave is really sincere in his desire to get Mr., Granger before the Committee again, it would seem reasonable for him to make it evident by swearing out a warrant alleging some observed. Then, too, Mr. Goff hopes and expects mumber of transactions in which the commissioner was interested were gone that he had no warrant or even summons showing that he actually believed a crime had been committed. This seems to imply lack of sincerity, and list as on accepted by the police, who are not instructed to wait upon the beck seems to imply lack of sincerity, and list as on accepted by the police, who are not instructed to wait upon the beck seems to imply lack of sincerity, and his examination Monday was really periminary to the most interesting memeranda, and when even observed.

But Mr. McClave is really sincere in his desire to get Mr. Granger hefore the Commissioner was interested were gone that he had no warrant or even summons showing that he actually because of the mirror of het. Granger hever had an information which was to come. Then, too, Mr. Goff hopes and expects of the first week's work of the first week's week's week's week's week's week's marked to define the warmest satisfaction in the result of the first week's week's week's week's week's marked the warmest satisfaction of the result of the first week's week's week's week's marked to marked the warmest satisfaction in the result of the first week's there week's w

nowever, that he had not heard of the man's arrest.

It is a very safe presumption that if Central Office detectives had been sent to arrest Granger he would have been in the toils long before this, or else there would have been a numerical decrease in the Central Office force.

Policeman Barnes, who serves in the capacity of messenger for Commissioner McClave, is the only police officer, so far as can be ascertained, who has been looking for Granger, and even he was in close attendance upon Commissioner McClave while the latter was a witness before the Lexow Committee.

If it is true that Supt. Byrnes has under the existing peculiar circum—

"If there is any truth in the accusa-

stances, detailed detectives to hunt up Granger, they could not in the premises legally arrest him. All they could do, under the law, would be to locate the man and report his whereabouts to the Superintendent. Should Granger, for instance, be 'located in New Jersey, he could snap his fingers at the detectives, or even the Sergeant-at-Arms of the Lexow Committee, unless, indeed, Commissioner McClave should prove the sincerity of his desire to get Granger on the witness stanil by swearing out a warrant for his arrest for forgery, for which he could be extradited.

Members of the Chamber of Commerce are highly gratified with the progress of its Lexow Committee fund. Gustave Sshwab said to an "Evening World" reporter this morning:

"The prospects are most encouraging, and I may now as "his desired to the committee of the committee of the properties of the Chamber of Commerce are highly gratified with the progress of the Chamber of Commerce are highly gratified with the progress of the Chamber of Commerce are highly gratified with the progress of the Chamber of Commerce are highly gratified with the progress of the Chamber of Commerce are highly gratified with the progress of the Chamber of Commerce are highly gratified with the progress of the Chamber of Commerce are highly gratified with the progress of the Chamber of Commerce are highly gratified with the progress of the Chamber of Commerce are highly gratified with the progress of the Chamber of Commerce are highly gratified with the progress of the Chamber of Commerce are highly gratified with the progress of the Chamber of Commerce are highly gratified with the progress of the Chamber of Commerce are highly gratified with the progress of the Chamber of Commerce are highly gratified with the progress of the Chamber of Commerce are highly gratified with the progress of the Chamber of Commerce are highly gratified with the progress of the Chamber of the Chamber of the Committee and it would be extent to the committee and it would be extended to the Committee and

porter this morning:
"The prospects are most encouraging, and I may now say that chough money has been either actually subscribed or pledged by the business men of the city to enable the plan of the plan of the investigation to be thoroughly carried out."
"I have talked with many of the business men who are members of the Chamber, besides the members of my own Committee during the last two days, and I find that they are all delichted with the progress made in the investigation thus far.

"It is a stupendous monte.

a very gorgeous pale-blue brounded dress valued at \$125, for which she agreed to pay \$18 weekly. At the end of the first week Miss Ritchie called personally on Mrs. Hermann and paid the amount due. At the end of the second week, which was last Saturday, no one appeared to pay for the dress, and Mrs. Hermann heart nothing from Miss Ritchie. Mrs. Hermann called on the latter to learn the cause of the delay, and Miss Ritchie not only positively refused to pay the \$18 claimed, but also refused to give up the dress.

Mrs. Hermann then complained to Mr. Lederer. The latter, she says, refused to aid her in regaining possession of the costume, and also declined to pay the rent for the garment. Mrs. Hermann then appealed to the court, and, in consequence, Miss Ritchie will have to answer a charge of larceny.

BICYCLERS FOR POSIMEN

What Postmaster Hesing, of Chicago, Recommends.

CHICAGO, May 25.—If the Post-Office Department listens to Postmaster Hesing, many Chicago letter-carriers will soon be mounted on blcycles when they deliver the mail. In the investigation of the question of overtime it has been discovered that a few of the carriers, who wn and use bleycles, can make better time over their routes than those who

time over their routes than those who walk or use street cars.

The Postmaster has advised the Post-Office Department to use the apportionment for car fare, which amounts to over \$20,000 a year, to help the carriers in the outlying districts to procure biscretes, it is not the intention of the Postmaster to purchase the wheels for the men, but to assist them to purchase, the money to be finally returned to the Government by instalments.

GOLD OR "GOLD BRICK?"

Minneapolis Suburb Excited Over Boy's Find. (By Associated Press.)

MINNEAPOLIS, Minn., May 25.-Rich-field Centre, a suburb of this city, is excited over the finding of a bar what appears to be almost pure gold the form of an oblong nugget. The find Was made by a tweive-year-old boy, Albert Wilson, who was wandering through a grove near the Lake of the Woods. The nurget weighs thirty-four pounds, and should it prove to be genuine it will be worth about \$10,000.

A canvas bag was found in which the nurger had been carried by the parties who hid it. An essay may possibly develop it to be of the "gold brick" order used by swindlers.
